

Ultrathin Light LED frames

MAGNETIC PANEL 12MM

DOUBLE PANEL 16MM

Magnetic Panel – ultrathin magnetic aluminium profile frames with or without LED lighting. Magnetic tapes cover all the perimeter of frames and PET panel surface, which allows you to securely install the poster. Poster replacement Magnetic panel is very easy, but this requires a rubber suction cup (included).

Thinnest one-sided frame – 12mm, double-sided – 16mm.

Light LED frames

LIGHT LED CLIC

LED light boxes are ultra-thin and maintain balanced lighting of the whole surface with Clic system for frequent and quick change of picture.

One-sided 23mm and double-sided 30mm

PANEL LED 20MM

Panel LED 20mm is thin LED lighting frame (bagnet). Frame is intended for small and medium-sized graphic.

One-sided 20mm.
